*File: ED178B1*

*An - Fed Incinerator*

Gentlemen:

In accordance with verbal request of your technical representative, we are pleased to offer the following quotation on the supply of four (4) incinerators. The estimated unit cost would be seven thousand five hundred thirty nine dollars fifty-three cents each (\$7,539.53) on a cost plus fixed fee basis, plus a fixed fee of five hundred twenty seven dollars seventy-seven cents (\$527.77). This price includes special tooling amortized over four units in the total amount of three thousand nine hundred dollars (\$3,900.00).

As we discussed by telephone, this job has proven to be beyond the capabilities of our Shops and, acting in your behalf, we have secured an outside price from the Portland Copper and Tank Works, Portland, Maine, a most reputable fabricator of stainless steel.

It is our thought that if for security reasons it would be desirable for us to subcontract this job in its entirety and act as a middle man to your organization, we would be willing to do so for a normal G & A and profit.

Delivery on the first units could be accomplished in 6 to 8 weeks after receipt of order with one unit per month delivered following that first unit. It would be possible to accelerate the delivery if found desirable by your organization.

We thank you for this opportunity to offer quotation and regret that we are not in a position to handle the job within our Shops.

Very truly yours,

AMERICAN MACHINE & FOUNDRY COMPANY
